

*Client Name and address*

## CONAUT CONTROLES AUTOMATICOS LTDA

Rua Internacional, 309 - Granja dos Cavaleiros – CEP 27930-075 Macaé RJ  
Brasil

*Standard*

## ISO 10012:2003 Measurement management systems

INSPECT assessed and approved that related firm meets the requirements of the designated standard at related scope

*Scope*

Management of fluid flow measurement and control systems and their associated instruments.  
Metrological compliance analysis of fluid flow measurement and control systems

Gerenciamento de sistemas de medição e controle de vazão de fluidos e seus instrumentos associados.  
Análise de conformidade metrológica de sistemas de medição e controle de vazão de fluidos

Initial issue date: 29.Jun.2020  
Issue date of this certificate: 17.May.2022  
Validity of this certificate: 28.Jun.2023  
Recertification date: 28.Jun.2023  
Certificate No: 20.05.522-MS

The period of certificate is 3 years

INSPECT is accredited by International Accreditation Service (IAS) United States Of America

Standard

## ISO 14001:2015 Environmental Management System

INSPECT assessed and approved that related firm meets the requirements of the designated standard at related scope

Scope

Design, development, manufacture, installation and sales of process control systems for the management of industrial plants and stations for measuring physical and chemical characteristics of fluids (on shore and off shore). Sales, supply of the following products and services (on shore and off shore): management of measurement systems in instruments and process control systems; calibration of measurement instruments for: pressure, temperature, flow and dimensional inspection; technical assistance, maintenance and repair services for valves and measuring instruments; training in control systems, measurement and analysis instruments for process control

Projeto, desenvolvimento, fabricação, instalação, comercialização e fornecimento de sistemas de controle de processo para gerenciamento de plantas industriais e estações de medição de características físicas e químicas de fluidos on shore e off shore. Fornecimento de produtos e serviços on shore e off shore no: gerenciamento de sistemas de medição em instrumentos e sistemas de controle de processo; calibração de instrumentos de medição nas grandezas: pressão, temperatura, vazão e inspeção dimensional; assistência técnica, manutenção e serviços de reparo de válvulas e instrumentos de medição; treinamento em sistemas de controle, em instrumentos de medição e análise para controle de processo
